SIGHTMANAGER® DOCUMENT REVIEW MANAGEMENT TOOL

Introducing SightManager®, the revolutionary document review management tool only from Special Counsel.

Until now, the logistics of managing and supervising personnel working on offsite document reviews has often been difficult, time-consuming, and expensive. No more. SightManager provides cutting-edge monitoring and reporting tools that allow you to manage multiple projects securely and efficiently without leaving your office.

This revolutionary tool has changed the face of document review: supervisors can manage a project from anywhere, monitoring workers' individual computer desktops in real time; the talent pool of reviewers is unlimited by geography, scheduling, or equipment; and the review team size is not constrained by the physical dimensions of project facilities.

This remarkable new technology will produce enormous cost savings for your projects, whether your reviews are housed in one of our state-of-the-art TurnKey Legal Centers or in another location.
